

Designated Provider Network for Bariatric Surgery (DPNBS)

Tufts Health Plan defines a Designated Provider Network as a restricted group of providers/facilities assembled to promote optimal member outcomes for specific designated service(s) by each provider/facility within the Designated Provider Network.

To be a participant within the DPNBS, an organization must be contracted with Tufts Health Plan, maintain a credentialing status that is not adverse, adhere to service-specific Designated Provider Network requirements, maintain an acceptable licensing status, and maintain the appropriate certification and/or accreditation, as follows:

- Inpatient/outpatient facilities performing Gastric Bypass Surgical Procedures (GBS), Gastric Sleeve Procedures, and Laparoscopic Adjustable Gastric Banding (LAGB), must submit proof of the following:

Full Approval status* by the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP), a joint program of the American College of Surgeons and the American Society for Metabolic and Bariatric Surgery. Facilities must meet all designation requirements for accredited centers for one of the following facility types:

- *Comprehensive Center*
- *Comprehensive Center with Adolescent Qualifications*
- *Ambulatory Surgery Center*
- *Low Acuity Center*
- *Adolescent Center*

*Certain elements may be waived at Tufts Health Plan's sole discretion

To qualify for bariatric surgery coverage, members must meet all of the [Bariatric Surgery Medical Necessity Guidelines](#).

TUFTS HEALTH PLAN COMMERCIAL AND USFHP PRODUCTS FACILITIES*:

Note: * Excludes: Tufts Health Public Plan products.

HMO AND EPO MEMBERS

Bariatric surgery must be performed at facilities in the Tufts Health Plan DPNBS in order for the procedure to be covered for HMO and EPO Members. Please note that some plans may have a network that is smaller than the full Tufts Health Plan network, and thus not include all facility options listed above. Please call member services with any questions concerning your network options.

POS AND PPO MEMBERS

If POS and PPO members want to receive coverage at the authorized or in-network level of benefits, bariatric surgery must be performed at one of the facilities in the Tufts Health Plan DPNBS. If bariatric surgery is not performed at a DPNBS facility, coverage will be provided at the unauthorized or out of network level of benefits.

US FAMILY HEALTH PLAN (USFHP) MEMBERS

USFHP members must use a facility within network and the USFHP Designated Provider Network for Bariatric Surgery in order for the surgery to be covered.
